UFP8 Cat.6_A

Unshielded field assembly RJ45 plug

UFP8 Cat.6_A - Unshielded field assembly RJ45 plug

Here's the situation: An existing network needs extending. A cable link needs to be repaired or replaced. A peripheral device needs to be connected quickly. Your customer expects a fast and reliable solution but you don't have a cable assembly ready at hand. Sound familiar?

Now you can keep your cool when faced with such demands – with the new, field assembly UFP8 Cat.6_A plug developed by Telegärtner.

The UFP8 Cat.6_A is the RJ45 plug for time-saving and efficient on-site assembly for all networks, from Voice right through to 10 Gigabit Ethernet. It can be assembled on all standard types of cable in just 60 seconds – and no special tools are required.

Whether in the office, in data centers or in home networks – the UFP8 $Cat.6_A$ offers unprecedented flexibility and saves time and money on installation, repairs and maintenance.

Performance Characteristics

- Category 6_A: ISO/IEC 11801:2010; Category 6A: ANSI/TIA/EIA-568-C.2
- plug: IEC 60603-7-41
- life: ≥ 750 mating cycles
- contact finish material: Ni1.2Au0.8
- housing material: PC UL94-V0 black
- Cu conductor diameter (J00026A3000, -1, -3110, -3111): solid 0.51 - 0.57 mm (AWG 24/1 - 23/1) or stranded 0.46 - 0.65 mm (AWG 27/7 - 23/7) core diameter: 0.85 - 1.1 mm
- Cu conductor diameter (J00026A3002, -3, -3112, -3113): solid 0.57 – 0.64 mm (AWG 23/1 – 22/1) or stranded 0.65 – 0.76 mm (AWG 23/7 – 22/7) core diameter: 1.1 – 1.6 mm
- outer diameter of cable: 5.5 8.5 mm
- reusable piercing contacts: ≤ 4 cycles
- temperature range: -40°C to 70°C
- High Power over Ethernet plus (PoE+) in accordance with IEEE 802.3at

Assembly steps

Remove cable jacket and prepare wires by untwisting pairs and inserting them into wire manager. The wire manager is available in colour code T568A or T568B. Press wire manager together with a plier wrench and cut off excess wires.

Remove black assembling aid and insert board with wires connected into plug housing. The wire manager is keyed and can only be inserted the right way up.

Press housing until snap-in and attach strain relief acc. to cable diameter
